Dear Residents, Visitors and Contractors

ACCESS PROTOCOL FOR ROB ROY RETIREMENT

The Rob Roy Management Committee has decided to allow non residents (both visitors and contractors) on site under the following conditions:

- 1. You must produce a valid vaccination certificate (DIGITAL OR PHYSICAL). This includes all children aged 12 years and older;**
- 2. Children under the age of 12 must produce a negative "COVID 19 PCR" test result not older than 48 hours from the time of entry. Antigen tests are expressly excluded.**

We ask that residents inform family and visitors of this new protocol. The nursing staff will advise relatives and medical staff that wish to visit residents in the Care Centre.

Management will print and laminate this document and leave several copies at the front gate. The Ensure guards will be requested to hand to incoming visitors/contractors to read, and be held accountable to implement this directive.

Yours faithfully

Rob Roy Management Committee
