

**SWORN AFFIDAVIT AND LEGAL NOTICE  
REGARDING VACCINATING CHILDREN**

I, the undersigned, \_\_\_\_\_, hereby make oath and say:

1. I am a citizen or resident of South Africa with relevant identification number:

\_\_\_\_\_ currently residing at \_\_\_\_\_

Phone: \_\_\_\_\_

2. The facts contained herein are within my own personal knowledge and are to the best of my belief both true and correct unless specifically otherwise indicated.

3. I am the parent / guardian / foster parent / caregiver / representative of:

\_\_\_\_\_ Age and in grade

\_\_\_\_\_ Age and in grade

\_\_\_\_\_ Age and in grade

**4. I do not want the child / children to take the Covid19 experimental injections.**

**5.** I stand on **rights** in the common law, Nuremberg Code on medical experiments, and South African constitution, specifically the right to bodily integrity. *Any attempt to discriminate against the child or me is equal to medical apartheid & abuse of power.*

**6. Definition:** These jabs are not vaccines by definition. They do not prevent infection, nor transmission. Moreover, masks are still expected to be worn post-jab.

**7. Efficacy:** The jab's effectiveness is waning so badly, and so quickly, that these are actually failed jabs. This is why they now need to push expensive booster shots.

**8.1. Trial:** There is no long-term safety data, as this EUA jab trial only ends in 2023.

**8.2. Safety:** Jabbed children suffer allergic reactions, myocarditis (swelling heart), blood clots (leading to heart attack/stroke). Reproductive organs may be affected.

**8.3. Reporting systems:** These dangerous negative effects have been proven to be experienced worldwide in Vaccine Adverse Reporting Systems, such as the US VAERS, EudraVigilance, the UK Yellow Card system, and locally in SAVAERS ([www.SAVAERS.co.za](http://www.SAVAERS.co.za)). For more local information: [info@THJ-Africa.org.za](mailto:info@THJ-Africa.org.za).

**9. Care:** Most South Africans cannot afford private health care. Public hospitals are not properly equipped. Our health facilities are not sure how to treat jab injuries.

**10. Risk:** The risks of children taking these injections far outweighs alleged benefits. From numerous studies and data worldwide, Covid-19 has no severe symptoms in children. These studies also confirmed children are not good carriers or spreaders of the corona virus, which means there is little to no risk of them affecting anyone.

**11. Treatments:** Effective, safe, cheap prevention and treatment include Ivermectin, Hydroxychloroquine, zinc, colloidal silver, vitamins, neem, turmeric, aspirin, NAC, etc. Kindly refer to: [www.WorldCouncilForHealth](http://www.WorldCouncilForHealth) / [www.FLCCC.net](http://www.FLCCC.net) for guidelines.

**12. Recovery and immunity:** Children's recovery rate is actually excellent. It is also proven in studies worldwide, that natural immunity far surpasses injection immunity.

**13. Jab manufacturer indemnity:** These injections may be responsible for death, disability, and any other long term side effects. The manufacturers of these shots are indemnified by this government from taking any responsibility should this happen.

**14. Consequences:** Should the child/ren be convinced OR injected without my knowledge and written consent, I must reserve my right to protest, as well as:

**a) Criminally charging** as well as **civil law suing** the person administering the experimental jab on the child/ren, anyone who promoted/facilitated this act, and/or the school, its governing body, the department of education, and various ministers.

**b) Embarking on a public awareness campaign** regarding the violation of the child/ren's rights to health, dignity and safety, and the rights of the parent / guardian.

**c) Reporting** your school or facility to the Red List website [[www.redlist.co.za](http://www.redlist.co.za)] which lists organisations coercing, harassing, forcing, or assisting in jab experiments.

**15.** *I trust actions in para. 14 will not be necessary, as you will respect this notice.*

**16.** Should you require further information, *please feel free to contact me.* I and others are willing to assist the school if it is facing bribery or pressure from anyone, including this government that benefits from unending lockdown. I await your reply to my email address and / or the email address of the organisation representing me:
